

AREA TOP - AREA LIGHT

230 Vac electro-mechanical barriers
for vehicular spans of 3 to 4.5 m.

Design and strength: Area TOP comes with a painted steel casing while Area LIGHT comes with a shaped techno-polymer casing.

AREA TOP

AREA LIGHT

The emergency release is accessible from the outside. On Area TOP the release features a personalised key.

An electronic anti-crush system guarantees safe automation.

The barrier consists of a single piece tubular steel structure.

Beams in lightweight aluminium alloy, with a rubber safety strip to prevent knocks and scratches.

Technical Data

POWER SUPPLY	230V 50Hz
MOTOR POWER	250 W
OPENING TIME	5 sec
CLOSING TIME	5 sec
BEAM LENGTH	3m-3,5m-4m-4,5m
OPENING APPROACH SPEED	Adjustable
CLOSING APPROACH SPEED	Adjustable
OVERLOAD TEMPERATURE	1,6 A
THERMOPROTECTION	90° C
OPERATING TEMPERATURE	-20°/+70° C
PROTECTION RATING	IP 44
